Draft Environmental Impact Statement for a Geologic Repository for the Disposal of Spent Nuclear Fuel and High-Level Radioactive Waste

Comment Sheet

Name: Carolyn Griffith

Organization: St. Francis Catholic Worker

Mailing Address: 4652 N. Kenmore
Chicago IL 60640

Zip:

Telephone number (optional): ()

I request that these comments be made a part of the official record.

- 1 ☐ What scenarios will be used for future groundwater use in the area, and why were they selected?
- 2 ☐ Will radiation sources in the area, other than the repository, will be considered in a total dose calculation? Will the recently reported spent fuel buried somewhere in Area 25 of the Nevada Test Site be included? What about the cumulative impacts to groundwater from nuclear testing?
- 3 ☐ I would also like to know what is being done to phase the use of Nuclear energy & thus the creation of more nuclear waste
- 4 ☐ Why should Nevada ~~have~~ pay the price of Nuclear waste when Nevada has no Nuclear reactors

Please note: For your comment(s) to be considered in the Final Environmental Impact Statement, your comment(s) need to be received by the Department of Energy by February 9, 2000. To the extent practicable the Department will consider comments received after February 9.
